Wednesday - 8 September 1948

1. In talking with Mr. Freeman, Mr. Pforzheimer rejected his request of 7 September and stated that names would not be furnished until the hearing, at which time an adjournment could be had if needed. Mr. Freeman requested the right to make an oral argument on this point before the Board prior to hearing. This was rejected and he was told he could make a statement at the time the Board convened. He stated, however, that the whole procedure was an outrage and that he would write us a letter on this matter. Further abuses were tendered by Mr. Freeman, who later apologized for being so "rough".
